ED 023 167 EA 001 637

By - McDonald, Blair W., And Others
A Selected Bibliography of Organizational Climate Studies Relevant to Research Performance.
Richardson Foundation, Greensboro, N.C. Creativity Research Inst.
Pub Date Nov 67
Note - 19p.
EDRS Price MF - $0.25 HC - $1.05
Descriptors - *Bibliographies, Creativity Research, *Industry, *Organizational Climate, *Performance Factors, *Research, Scientists

This selected bibliography of articles and books concerns the effects of industrial climate on research performance. (HW)

## Introduction and Acknowledgements

The authors have herein attempted to assemble a series of articles and books which have some bearing upon the study of industrial climate as it effects research performance. We readily admit that the list of sources may be incomplete. However, we have attempted to make it as comprehensive as possible.

We wish to acknowledge the contributions of Robert T. Snarr, Richard M. Minen, Shig Fujitani, and Lawrence James without whose assistance this bibliography could not have been completed.
